

Expert for SAP APO/ SAP ERP - (f/m/n)

Freelance-ID: OCR-FL-2679

Our client from the pharmaceutical industry is planning the further development and rollout of SAP APO PP/DS as a production planning tool. We are therefore looking for an expert with many years of experience with SAP APO or equivalent systems. The project will be realized in a hybrid/agile environment. The sprints each have a duration of 3 months.

Tasks:

- Designing, executing and documenting functional tests in SAP ERP / APO
- The functions to be tested are defined by the project team during the agile project meetings. The tests are documented informally in MS Word.
- Professional and technical advice on the implementation of production planning processes in SAP APO
- Creation of training documents for production planning in SAP APO in PowerPoint
- Creation of user requirements in MS Word
- Agile sprints with a duration of 3 months each and 2 project-related meetings per week

Skills:

- Experience with production planning processes in SAP APO and / or SAP ERP
- Several years of project experience in software implementation projects
- Experience of working in a regulated GxP environment
- (pharmaceutical / food industry)
- Project language: English

Additional Information

Availability: 27,5h/week remote
Project Start: 01.04.2024
Duration: 6 Monate
